**\*\*SPARES (advice from Xchanging)**

*When items requiring Spares Cover are placed the brokers could at that point;*

- 1 request that the lead uwr allocate a V risk code for Spares on that slip - we can then close as a normal signing (ie, not off of the facility) but associated to the rest of the risk.*
- 2 request that the lead uwr agree to sign the Spares coverage as a special acceptance under the AP risk code already allocated - we would then sign off of the facility.*
